

Jonathan Hodges

Applied AI, Enterprise Transformation & Data Products

Denver, Colorado | 720-668-7190 | me@jonathanhodes.ai | linkedin.com/in/jonathanhodes | jonathanhodes.ai

EXECUTIVE PROFILE

Data and AI executive with 15+ years of experience helping startups and Fortune 500 companies turn complex workflows and proprietary data into safe, scalable AI products. Leads DevRev's Applied AI organization across strategy, governance, engineering, infrastructure, and enterprise delivery. Previously founded Dakota Ridge Consulting to help clients move from zero-to-one AI strategy to safe production adoption. Scaled a global data and analytics organization to 100+ people, managed budgets up to \$27M, and helped launch data and AI products contributing nearly \$20M in annual sales. Combines C-suite and board advisory experience with hands-on depth in agentic AI, LLMops, model economics, cloud data platforms, and responsible AI.

PROFESSIONAL EXPERIENCE

DEVREV

SEP 2025 - PRESENT

Vice President, Applied AI

Enterprise AI | SaaS

- Lead a 37-person organization with three direct reports responsible for AI Strategy & Governance, three AI Engineering pods, and PMO/Agile Delivery.
- Build AI-enabled developer workflows, standards, and plugins across the SDLC to expand practical adoption within engineering.
- Own AI value realization for internal functions and enterprise customers by redesigning end-to-end workflows across sales, marketing, and finance, including accounts receivable.
- Partner with Solutions Engineering and Forward Deployed Engineering on complex implementations, then transition reusable, supportable solutions to long-term owners.
- Direct platform-native agent and Computer workflow delivery; pioneered lakehouse connector implementations for S&P Global, Camping World, Penumbra, and MongoDB.
- Lead model routing, usage classification, and AI cost governance through OpenRouter and LiteLLM, matching models to tasks and evaluating consumption against business value.

DAKOTA RIDGE CONSULTING LLC

OCT 2023 - SEP 2025

Founder & Principal AI Consultant

AI Strategy & Transformation | Consulting

- Founded a consulting practice helping early-stage and Fortune 500 companies convert AI opportunities into safe, governed production systems spanning strategy, process redesign, architecture, evaluation, security, delivery, and adoption.
- Served in embedded leadership roles as VP, AI & Machine Learning at Bolt; Head of AI & Machine Learning at Userpilot; and Fractional CTO and Board Member at WorkForge; also led AI delivery at Atypical AI.
- At Bolt, scaled the AI/ML organization from 7 to 33 and launched merchant-branded assistants, multimodal search, generative media, and unified shopper profiles for approximately 80 million users, backed by a GCP MLOps/LLMops platform.
- Delivered multi-agent tutoring at Atypical AI, support and analytics agents at Userpilot, and AI-powered video personas and back-office automation at WorkForge; advanced production guardrails, data rights, and SOC 2 readiness.
- Subcontracted through Valtech on enterprise AI engagements for John Deere, Starbucks, Mars, and National Veterinary Associates, alongside advisory work across healthcare, fintech, edtech, and media.

GLOBAL HEALTHCARE EXCHANGE (GHX)

OCT 2021 - OCT 2023

Vice President, AI & Enterprise Analytics

- Shifted GHX from selling aggregated data to delivering customer-facing AI products and internal decision systems, helping exceed board revenue targets in a year when GHX achieved 22% top-line growth.
- Built a portfolio spanning digital twins that predicted supply chain disruptions and recommended alternative devices, medical-device price and efficacy benchmarks, sales-territory forecasts, and propensity models.
- Migrated fragmented legacy systems and data products to standardized cloud platforms and built curated AI-ready datasets leveraging GHX's visibility into approximately 70% of U.S. medical-device transactions.
- Delivered C-suite and M&A analytics plus churn prediction, pricing recommendations, demand forecasting, and next-best-action models.

WORKIVA

OCT 2019 - SEP 2021

Vice President, Data Management & Analytics

- Owned a \$16M annual budget and a three-year enterprise data strategy spanning AI, business intelligence, monetization, governance, lifecycle management, and analytics product roadmaps.
- Established a Data & Analytics Center of Excellence across five existing teams, standardizing data science practices and expanding self-service analytics across Sales, Marketing, Finance, and Customer Success.
- Partnered with Legal, Information Security, and Product to build a Zero Trust environment for pre-filed financial data from more than 75% of Fortune 500 companies and establish responsible customer-data terms.

ASCEND LEARNING

AUG 2015 - SEP 2019

Vice President, Data & Analytics

- Scaled the global data and analytics organization from 4 to 100+ professionals, managed a \$27M budget, modernized cloud data platforms, and established data governance in support of the company's sale to Blackstone.
- Helped drive 50% revenue growth from \$250M to \$375M; data products accounted for 25% of organic growth and contributed nearly \$20M in annual sales.
- Launched adaptive-learning and early-alert products that improved student pass rates by approximately 16% and retention by approximately 11%.

PEARSON EDUCATION**Chief Architect, Adaptive Learning & Analytics**

FEB 2014 - AUG 2015

Director, Adaptive Learning & Analytics

JAN 2013 - FEB 2014

- Established the Chief Architect role and led global data and analytics strategy, governance, and product roadmaps for adaptive learning, early alerts, efficacy studies, and content recommendations.
- Built cloud research environments, data pipelines, streaming infrastructure, and A/B testing capabilities that accelerated model development, validation, and performance monitoring.

NBCUNIVERSAL

FEB 2008 - DEC 2012

Technical Director, Data & Analytics / Big Data Architect

- Led data strategy and teams delivering machine-learning recommendation engines and online voting systems for shows including America's Got Talent and The Voice.
- Partnered with GE researchers on video recommendations; data initiatives contributed to 20% revenue growth in one year (approximately \$20M) and nearly 17% growth in advertising revenue across digital properties.

ADVISORY, THOUGHT LEADERSHIP & INNOVATION

- **Innovation Advisory Council Member, Vation Ventures | May 2022 - Present:** Advise early-stage companies and collaborate with a global community of technology executives.
- Contributed practitioner perspectives to Mayfield's *Enterprise AI in 2025: The CIO's Roadmap*, including the featured section *Beyond Chatbots: Building AI into Your Core Products*.
- Moderator and panelist on AI in FinTech, data-driven growth, and AutoML; track record includes seven patents.

EDUCATION

University of California, Berkeley, School of Information

Master of Information and Data Science (MIDS)

Auburn University

Bachelor of Science, Management Information Systems

University of Denver, Daniels College of Business

Emerging Leaders Program
